

## Taxation Stand

(Continued from Page 1)

say that the provinces have priority. "NOT ONLY is there neither historical nor legal support for this proposition, but what the Dominion as a matter of course or courtesy refrained from imposing heavy direct taxes on the provinces on sales taxes and the like the result was most unsatisfactory to all concerned. We produced a structure which was a fair compromise of what it should be. Our taxes fell to disproportionate extent of consumption and sales and thereby tended to reduce living standards, production and employment."

As a result of such a policy, recovery from the depression was retarded.

"DOES ANYONE in this conference, after due reflection, think that if the Dominion were to get out on the field of direct taxes and recover its huge revenue requirements from indirect taxes, that we would have anything but unemployment and depression in this country," said Mr. Carson. "I think that the course which is being followed on the basis of an argument which is unground both historically and legally."

Mr. Carson, who yesterday called on the conference to request amendment on modified during the last few months, said he did not agree that provinces would lose their fiscal autonomy by giving up personal income, corporation and inheritance tax rights.

**THE DANGER** of losing financial responsibility might arise if Dominion subsidies exceeded the needs of the provinces and such a situation was unlikely to arise.

He said the provinces have unanimously asked for the power to impose a retail sales tax. If power were granted if agreement was reached by the conference.

If the provinces had the power to impose such a tax, the limitations of an efficient tax system, they would possess a large measure of fiscal autonomy. Their governments could raise money for desirable projects without consent or advice from any other government.

**MR. CARSON ASKED** for clarification of the Ontario conference proposals. He said the Dominion had offered to give Ontario a subsidy of \$15, but Ontario had presented a formula where the value of the subsidy was "X" dollars.

Ontario had suggested that the Dominion give up succession duties and taxes on gasoline, amusements, part-mutuals, security transfers and electricity. He wanted to know if there was ready to have its subsidy reduced by the amount collected in such taxes.

Mr. Drew replied that the Ontario proposal was based more closely on population and on gross national income than the Dominion's federal offer. He said the Ontario proposals were quite clear and that experts of his government would be glad to explain them to Mr. Carson during the luncheon adjournment.

Mr. Drew made no direct reply as to whether Ontario would agree to have the subsidy reduced by the amounts from gasoline, amusements and other taxes.

## New Beer Glasses Ready by May 6th

Beer glasses with the foam circle registered in Alberta beverage laws under new government regulation, will be ready for distribution to wholesalers and retailers by May 6, M. A. Steele of the staff of Dominion Glass Co. Ltd. stated here Thursday.

**MR. STEELE**, with A. B. Bove, also of the company sales staff, is in Edmonton visiting distributors in connection with glassware for the Dominion Glass Co. Ltd., operate a large glass manufacturing plant at Redfield, near Newburg, Ont. It is the only glass manufacturing plant west of Wallaceburg, Ont., where the company has an other factory.

giving up taxes on gasoline, part-mutuals, amusements and certain services to the Dominion in order not to increase taxes in those fields during the term of a three-year agreement.

**WITHOUT NAMING** any per capita figure which would be acceptable to British Columbia, Mr. Hart gave these five conditions as he had sought with part of his financial arrangements:

"The arrangement should be capable of implementation without amendment to the British North America Act."

"In any transfer of provincial tax fields to the Dominion the compensation to be paid to a province in any year should never be less than the field which the affected provincial taxes would have produced, if they had been levied by that province, at the tax rate in force when the arrangement was made."

"That any financial arrangement should provide for a thorough review of the agreement, and its possible modification, at the end of three years."

"That where financial arrangements should be made, the provinces were to be paid, the payments should be determined by a formula which may be applied to any or all provinces."

"That any financial arrangement should be made, the provinces were to be paid, the payments should be determined by a formula which may be applied to any or all provinces."

"That any financial arrangement should be made, the provinces were to be paid, the payments should be determined by a formula which may be applied to any or all provinces."

"That any financial arrangement should be made, the provinces were to be paid, the payments should be determined by a formula which may be applied to any or all provinces."

## U. of A. Professor Takes New Post

Dr. Walter L. Dunkley, assistant professor in dairying at the University of Alberta, has resigned in order to take up duties with the Golden State Co. Ltd., of Cranston, Calif. Dr. Dunkley will be doing research work on the development of dairy products.

Dr. Dunkley graduated with his B.Sc. in agriculture from the University of Alberta in 1939 and got his M.Sc. degree in dairying from this university in 1941. In 1943 Dr. Dunkley received his Ph.D. in dairy chemistry from the University of Wisconsin.

**SINCE 1939**, Dr. Dunkley has been associated with the teaching staff in the faculty of agriculture at the University of Alberta.

Dr. and Mrs. Dunkley and son, David, expect to leave for San Francisco early in July. Mrs. Dunkley is also a graduate of the University of Alberta, having received her M.Sc. degree in house-hold economics in 1941, and was assistant professor of dairying at the University of Alberta.

Dr. Dunkley was employed as a technician at the University of Alberta, where he was in charge of the dairy laboratory.

## Won't Help Police in Theft Case "No Co-operation for Me," Says Girl; Gets Two Years

A 19-year-old girl, Edna E. Gardecki, who formerly resided at 196 Avenue, told the court Tuesday that she didn't see any advantage in co-operating with the police to aid them in recovering about \$600 worth of clothes she had bought with part of \$11,000 stolen here last November.

Magistrate J. M. H. Macdonald indicated that as a result he saw little reason to co-operate with the police in recovering the stolen goods, or if they are giving me a long sentence, I intend to spend it at Kingston penitentiary," he sentenced her to two years imprisonment less one day at Fort Saskatchewan house.

Adding further emphasis to the penalty of failing to co-operate with the police was the stipulation that the sentence be served with hard labor.

**LAST NOVEMBER** 19 Edna resuscitated a trunk belonging to Mary Stamp, who occupied an adjoining room at 8330 106 Avenue and stole her life savings amounting to approximately \$1,100, together with a camera and several rolls of film.

Dr. Dunkley graduated with his B.Sc. in agriculture from the University of Alberta in 1939 and got his M.Sc. degree in dairying from this university in 1941. In 1943 Dr. Dunkley received his Ph.D. in dairy chemistry from the University of Wisconsin.

## Canada Hospital Given to British

**TAPLOW, Buckinghamshire, England, April 20 (CP)—**Viscount Bennett, former prime minister of Canada, yesterday handed over the Canadian Red Cross hospital at Taplow, situated east of London and Lady Astor, to British authorities to be used as a hospital for children.

Health Minister Alexander Bennett, during the hospital, which during the war was cared for by military patients, Lord Bennett, chairman of the Canadian Red Cross, expressed the hope of the donors that "it will be used as a national key hospital for investigation and treatment of rheumatic cardiac affections of children."

Dr. Dunkley graduated with his B.Sc. in agriculture from the University of Alberta in 1939 and got his M.Sc. degree in dairying from this university in 1941. In 1943 Dr. Dunkley received his Ph.D. in dairy chemistry from the University of Wisconsin.

## Five-Year Clause Protested

## Citizenship Bill Receives Second Reading In Commons

By GEORGE KITCHEN

OTTAWA, April 30 (CP).—State Secretary Martin reiterated last night in the commons that the government's citizenship bill does not remove "one iota of the rights and privileges" enjoyed by British subjects living in Canada.

AFTER HIS ADDRESS the measure was second reading in Commons after a recorded vote and the chamber began clause-by-clause study in committee.

Mr. Martin said the bill was aimed at creating a sense of unity and oneness in Canada and at more clearly defining citizenship. He noted that some opposition members had objected to a requirement that British subjects seeking to become Canadian citizens go through the same procedure as other aliens, including a wait of five years' residence.

Actually, however, the bill did not change the status of British subjects. Their rights and privileges in Canada remained "precisely the same." They still would have the right to vote, own property, apply for old age pensions, enter the civil service, the bill merely "regularized" the method of becoming a Canadian.

THE SUGGESTION had been made that the requirement that a British subject must wait five years before receiving citizenship was a new one. That requirement had been in existence since 1913, when it was put on the statute books by a Conservative administration.

There were good reasons for this. They included the necessity of determining whether an immigrant was sound in health and character. Gordon Graydon (PC, Ont.) argued that the bill be referred to a special house committee to ensure a very best attention.

Mr. Graydon said Canadians perhaps could take a leaf from the book of the British people who had a great love for their land. The Dominion needed more nationalism and attachment to the Canadian soil.

Jean Francois Pouliot (Ind. N., Temiscouata) said the citizenship bill and the steps to select a distinctive Canadian flag were useless unless Canadians became imbued with a Canadian spirit, which was sorely needed in the land.

AS M. J. COLDWELL, CCF leader, had suggested, the bill should be recognized as the King of Canada. A man could serve in two functions.

Don Blackmore (SC, Lehigh) said the house should seek to define "imperialism" and "Canadianism" and distinguish between the two.

Members did not seem to be able to distinguish between the two.

Norman Jaques (SC, Wetaskiwin) objected to the five-year requirement before British subjects could become Canadians. Mr. Martin said that period was required in Australia and South Africa.

When the bill was being drawn up, said Mr. Martin, the government considered the requirement carefully and immigration officials had emphasized that the Dominion should not be "saddled with the burden" of maintaining people of

unsound health or criminal tendencies.

"THE TIME ELEMENT does not change the situation whatever," he added.

Dealing with another section which states that a Canadian citizen is a British subject, Mr. Martin said this did not mean that a Canadian citizen was a subject of Britain.

"The citizens of Canada are subject to no government outside of Canada," he emphasized. At the same time, it was beyond doubt that a Canadian citizen was a subject of the King and it would be a "cash man" who would suggest that a Canadian would be loyal as a Canadian citizen than as a British subject.

## Approved Many of Its Objectives

## Schacht "Saw No Crime" In Program of Nazi Govt.

By WALTER CROWTHER

Exclusive to The Edmonton Bulletin

30 (CP).—White-haired Hermann Schacht told the war crimes court today that when the Nazis said him on their "criminal intention" in their, instead approved many of its objectives.

Schacht's TURN to defend himself came after Julius Streicher's testimony was given. He said the Nazis said him on their "criminal intention" in their, instead approved many of its objectives.

He pictured himself as a business man drawn into the Nazi orbit by the good things he saw in Adolf Hitler's plans and blinded to the criminal potentialities of them.

HE SAID THE Nazi successes in the 1933 Reichstag election inspired him to read Mein Kampf and Hitler's plans and blinded to the criminal potentialities of them.

Schacht met Hermann Goerring at dinner party in 1933, he said. He was not "exceptionally impressed," but agreed to meet Hitler.

AT THEIR SESSION Hitler talked about 95 per cent of the time. He expressed good thoughts on social matters. He wanted to avoid strikes, lockouts and labor disputes by state intervention, not excluding private enterprise but putting it. This seemed to us acceptable.

"Hitler showed no knowledge of financial and economic questions."

He said that the Dominion give further consideration to the giving of taxes on gasoline, paraffin, amusements and certain other revenues. He asked that special consideration given to provinces in less favored financial positions than others.

Mr. Garton took issue with statements by Mr. Drew and Mr. Dapier as to the effect that the provinces had priority on direct taxation rights. He said such a claim was wholly contradicted by history, was wholly incorrect in law and was unground in economics.

HE DISAGREED also with claims that surrenders of income, corporation and inheritance taxation rights

## Big 4 Meeting

(Continued from Page 1)

France met for two hours and 45 minutes today at Luxembourg palace.

The disclosure that Italy and Yugoslavia were to be invited to the Big 4 meeting indicated that the discussion of the Italian border delimitation, and particularly of the Trieste problem, had progressed sufficiently to provide a working foundation.

BEFORE TODAY'S session it was learned that Russia had indicated willingness to place the American 25-year treaty for German disarmament on the conference agenda.

In what was described as a "slow day," the minister headed a committee report on the Yugoslav-Italian frontier. Four different border adjustments were proposed by representatives of the four powers on the committee. Three of the proposals were close together, but the fourth was "quite divergent," an American spokesman said.

FOREIGN MINISTER V. M. Molotov of Russia offered the proposal to have Italian and Yugoslav representatives come to Paris Friday.

After confirming a London decision of the foreign minister's deputies to refer Austria's claim on the South Tyrol, the Big 4 instructed the deputies to ascertain whether Austria has filed any request for "minor ratifications" of the main treaty.

At the suggestion of James F. Byrnes of the United States, the ministers decided to hold a day, one day, one at 11:30 a.m. and the other in the afternoon at an hour not yet decided.

FOREIGN MINISTER V. M. Molotov was heard, had indicated to Secretary of State James F. Byrnes that he does not intend to oppose putting the American plan on the schedule for discussion.

He hoped to obtain some agreement for the Russian viewpoint in return. The nature of the conference should lay their cards on the table as early as possible.

HE SAID TO believe that the conference would be a "big step" in the solution of the more difficult problems now being worked.

As an example of relatively simple problems, he pointed to the fact that the American proposal might go on the shelf temporarily because of a British objection.

Byrnes, it was learned, sounded out some members of congress on the 25-year treaty plan for German disarmament. He said the senators about the plan at the time he testified in support of Gen. Dwight D. Eisenhower's program for maintenance of a strong American military establishment.

THE MINISTERS today are expected to take up the question of Trieste and the Italian-Yugoslav frontier.

Foreign delegations are beginning to converge on Paris in lobby for their demands. Greek ambassadors from London and Athens are en route. Two Bulgarian observers are expected shortly and Romania is also sending representatives.

The fact that the United States has gone publicly on record as announcing its intention to co-operate with the European powers in peace, most diplomats believe may prove the most momentous event of the entire conference.

BYRNES DISCLOSED last night that the United States has proposed a treaty among Russia, Britain, the United States and France for enforcing German disarmament. He asked the foreign ministers to put the treaty on their agenda for discussion.

A similar treaty covering Japan has been proposed to the interested powers, Byrnes revealed. He did not propose that the conference to the Dominion would mean a loss of fiscal autonomy for the provinces. This danger, he said, would arise only if subsidies from the Dominion were greater than the needs of the provinces and there was little possibility of that.

Many long-winged, short-legged birds need room for a take-off and airplane before they can get up into the air.

## Slowdown Is Expected by Officials

## Little Likelihood of Completing Repatriation Program on Time

By JACK BRAYLEY

OTTAWA, April 30 (CP).

Despite the fact armed forces repatriation and demobilization is ahead of schedule, officials say there is little likelihood the program will be completed before the deadline of October or November of this year.

Byrnes DISCLOSED last night that the United States has proposed a treaty among Russia, Britain, the United States and France for enforcing German disarmament. He asked the foreign ministers to put the treaty on their agenda for discussion.

A similar treaty covering Japan has been proposed to the interested powers, Byrnes revealed. He did not propose that the conference to the Dominion would mean a loss of fiscal autonomy for the provinces. This danger, he said, would arise only if subsidies from the Dominion were greater than the needs of the provinces and there was little possibility of that.

portion of the home strength were on leave pending discharge and the remainder were either men held in service by reason of key positions or interesting force members of whom have expressed a desire to remain in the permanent force.

Between VE-Day and April 13, 1946, 30,000 Navy and 16,100 Air Force services had returned to RCAP.

THE TOTAL strength of post-war forces is to be 51,300 men—30,000 Navy, 25,000 Army and 16,100 Air Force.

Byrnes DISCLOSED last night that the United States has proposed a treaty among Russia, Britain, the United States and France for enforcing German disarmament. He asked the foreign ministers to put the treaty on their agenda for discussion.

A similar treaty covering Japan has been proposed to the interested powers, Byrnes revealed. He did not propose that the conference to the Dominion would mean a loss of fiscal autonomy for the provinces. This danger, he said, would arise only if subsidies from the Dominion were greater than the needs of the provinces and there was little possibility of that.

Many long-winged, short-legged birds need room for a take-off and airplane before they can get up into the air.

NAVAL CUSTOMS AND TRADITIONS NO. 3

HANDS TO PAYMENT: Ratings, unlike Chief Petty Officers, do not salute the Paymaster when being paid. They place their caps corner upwards on the Paymaster's table and place their pay on the cap. A winning officer is present to see that ratings are properly paid, and to distribute immediately any possible pay disputes. The custom dates back to the days when Paymasters were referred to as "Pay-bobs."

### ACQUIRING OF Bert Culver, second baseman for U.S. Signals for the past two seasons, as playing manager for one of the three clubs in the Edmonton semi-pro loop, gives the new city circuit a very substantial lift.

In addition to having considerable experience in the pro game, Bert was one of the top players in the Edmonton league during both '44 and '45. His appointment to one of the managerial berths, announced Monday by Riley Muller and Capt. John Beatty, looks like a good bit of business all around. Culver, now 36, was born in Washington, D.C., but his parents later moved to Salisbury, near from the Capital and he attended his school in that city. While he was an undergrad at University of Maryland, Baltimore Orioles signed him to a pro contract.

**BERT WAS SENT TO** Dover in the Edmonton loop when the season started in April. He played during '41 and '42 and he entered the U.S. Army early in '43, coming to Edmonton with Chicago Quartermasters later in the year. He performed with the Baltimore team in the Edmonton game in '43-44.

Culver started out as manager of Alameda Park in the senior circuit in '44 continuing in that position after the amalgamation with the Alameda club. He batted .383 that year and led in home runs with 27.

The 1945 schedule a third complete. Bert was leading the batting parade with an average of .383, was well up among the leaders all year. He actually worked out .385, slipping to .383 in the playoffs, but he finished the season with a .383 average.

**Magirl, DeBleck Win Wright and Thunderbird Take Tag Wrestling Event**

Only one fall was registered in the tag wrestling event of the mat show at the Empress Theatre on Monday night, but it meant a lot to the fans.

Hans Kampier, big Dutchman, who was paired with Pierre DeBleck, was one of the best to appear on Promoter Tommy Tasker's cards and supplied robust opposition for the Wright-Thunderbird combination.

**HUSKY HANS** didn't always wait for the official "tag" before cutting into the ring. When he "pandered" was too deeply involved, and occasionally all four gladiators became entangled.

Wright and DeBleck opened his titillating and Texas Jim won the bout in a round. The Texan finally bumped the Kampier dog on the post and concluded the deal with a body press.

**THE BIG FELLOWS** went the distance of the bout without the time's going signaling the 60 minutes had elapsed. The match was dragged out two long, but the fans of the customers showed any inclination to leave the premises.

**LEO MAGRIL** took two straight falls from Don Hurley, in the opening preliminary, the first coming at 6:22 and the second with a body press at 6:11.

Alex Gerke pinned Maurice DeBleck with a Boston grab in 7:02 for the first fall in the second period. DeBleck replied with a drop kick and body press at 8:23 and secured the odd fall nine minutes later.

**Sid Borewit** and Bill Brown were the times.

**Juvenile Ball Workout Tonight**

**EAC** juvenile baseball club will hold another workout tonight at 6:45 at Diamond Park (below McLaughlin Hill). All interested in trying out are asked to be on hand on time with their own equipment if any.

## Girls' Loop Now Has Four Clubs; Six Are in Men's Circuit and Four in Junior

# 14 Fastball Teams to Play at Kingsway

## Big Season Will Start On May 8th

By DON KILLIPS

One of the biggest, if not the biggest, fastball seasons in the history of Kingsway Park is due to open in May over a week's time—May 8th.

—when two highly rated senior girls' clubs—Morton and White-Rails—tangle in the opening game of what appears to be a long campaign.

This year there will be a total of 14 teams performing at the park on Kingsway. The senior men's loop will again have four clubs, but the senior girls' circuit has been increased to four and has the junior boys' league.

It was thought, following the withdrawal of the Army and Navy teams, that only two senior girls' teams would be operating in the circuit, but two others have been added to the list.

It was thought, following the withdrawal of the Army and Navy teams, that only two senior girls' teams would be operating in the circuit, but two others have been added to the list.

## Hedlunds Down 'Pegs 42-17 In First of West Hoop Final

**WINNIPEG, April 30.**—(CP)—Vancouver Hedlunds, pointing toward their fifth consecutive Canadian women's senior basketball title, whipped Winnipeg Pegs 42-17 here last night in the first game of a best-of-five series for the western Canada championship.

The smooth-working Hedlunds stepped into a snarl 9-0 in the first quarter but from there on out they played the hard-fighting Pegs by a considerable margin.

## Fans Crowd Louisville Final Derby Preview Draws Record Field

By SID FEDER

LOUISVILLE, Ky., April 30.—(AP)—Fourteen three-year-olds today will put on their final preview for the Kentucky Derby here in Derbytown where they rapidly are running out of bourbon and bedrooms and just plain elbowroom.

Everything about this 72nd Kentucky Derby is a big, so it naturally was figured the annual Derby trial stakes today practically would break out of its seams. And it will with the 14 horses entered Monday making up the largest field this "link" race for Derby horses ever has drawn.

**CHARLES FISHER'S** splashy Spy won't, Robert J. Kieber's Texas swifter, William Hells' Hippey and Warren Wright's In Kismet head the parade, but since no galloper has ever gone on from victory in the trial mile to grab that necktie of roses the following Saturday, none of these will feel too hurt if they don't get to the wire first today.

Meanwhile, Louisville was jamming up for this first \$100,000 running of Col. Matt Winn's annual super-colossal and historic and seldom-kept are fearful they'll be running out of ale and bottled bourbon Wednesday or Thursday.

And directing and managing the fight cards: Jim Parsons, Jr., Billy Smith, Bob Kay, Al Taney and Ernie Zurch were the instructors.

**MANAGER.** Bert Culver, prominent in city baseball activities during the '44 and '45 seasons as a member of the U.S. Signals team, has been named playing manager of one of the three clubs in the Edmonton semi-pro circuit.

Of the 13 boys who fought in the final six win provincial championship and five were runners up. The club operated under the guidance of Ron Joslin, with Charlie Dean acting as secretary.

**LINEUPS.** Vancouver-Bell (15); Burnham (7); Watson (10); Stoddard (1); Scowley (4); MacArthur (2); McCreedy (2); Fraser; Smith; McLeod (1); Total, 42.

**WINNIPEG-Duncan:** Barr (1); Culbert (7); Robertson; Fakes (2); McCalder (2); Ferris (3); Johnson; Williams (2); McQuigley; Total, 17.

**Officials:** George Osborne, Vancouver, and Syd Gleason, Winnipeg.

**Junior Cagers Go to Red Deer**

Fourteen players of the City Junior Girls' Basketball League championship Jays will make the trip to Red Deer today for an exhibition basketball contest.

Accompanying the team will be Coach Bill Tag, league director and Clare Hollingsworth, Art Skitch, K. Schwartz, Roy Haliburton, Mary Haliburton, Bert Barlow, Mrs. Barlow, B. Olsen.

Players who will be going are: Marie Schwartz, Edith Skitch, Del Wilson, Doris Nuffer, Silvia Calder, Ev. Richardson, Eleanor McIntosh, Ev. Craner, Gerry DeGraes, Len Bernstein, Mona Creighton, Ruth Phillips, Phyllis Cox, Shirley Wentworth.

**Larkin Is Junior Welter Champion**

**BOSTON, April 30.**—(AP)—After surviving three early knockouts, stylish Tippy Larkin of Garfield, N.J., stormed from behind to defeat windmill Willie Joyce of Gary, Ind., for the junior welterweight boxing championship Monday before 7,728 fans in Boston Garden.

While moving into that title berth—after only when boxing is prospering—Larkin escaped several knockout traps with speedy footwork and efficient jabbing and outlasted the Indiana Negro with his superior sense of pacing over the 12 rounds.

**Arrow Juniors Workout Tonight**

A practice of the Arrow Junior basketball team has been held for tonight at the south west corner of Diamond Park by manager Joe Shandro. Starting time is 6:30. Another practice will be held at the same time and place on Wednesday.

**GALS AGLEE** by E. Sims Campbell

**Junior Baseball**

South Side Junior baseball team will hold workouts at the 5th athletic grounds on Wednesday and Friday commencing at 6:30 p.m.

## Today's Sport Parade

LOUISVILLE, Ky., April 30 (BUP).—Watch for Mr. Jones, that's what they're saying today throughout the Blue Grass country as plain Ben Carden Calumet Farm's in earnest for the prized Kentucky Derby this Saturday.

### Golf

By Byron Nelson

WATCHING Bing Crosby play golf is equivalent to taking a lesson entitled "How to relax while batting par."

A very valuable lesson is to be physically relaxed and mentally alert.

I've played golf with Bing Crosby times and times and I can't say that I've ever seen him play the game with the ideal temperamental shooting for a 60 as he is before a mike.

As you know, that is an assignment that's strictly his.

Walter Hagen had the same ability to be thoroughly relaxed in fact, most good golfers have.

They are lots of golfers who can shoot low scores while playing in friendly tournaments, but in competition or before a gallery their scores skyrocket.

Bing is as hungry for those low scores as any golfer, but you'd never guess it to watch him play.

For instance, on one occasion I was playing with him at Lakeside when he needed a four for a 60 on the last hole.

Whenever Bing breaks to the golf course, it is his custom to give the caddy an order on the last fairway in town for a saloon-made suit.

Naturally the caddies are always trying to root him home in town and make the caddy at Lakeside that day no exception.

WE HAD PLAYED the last nine holes first and so we were finishing up on the par four ninth hole when Bing said to me, "Go ahead and line up this putt. It's your ball."

He caddy tried and tried, but he finally confessed that he was as nervous as he didn't know which way the grain of the green would make the ball break.

When he stepped up, looked it over and knocked the ball into the cup for his 60 and the caddy's new suit.

ANOTHER TIME I was playing with Bing at the Cherry Chase course in Washington when he had a 50-foot putt to sink on the last hole for a 60.

A big negro boy was caddying for him by the time Bing stepped up to putt that boy was so nervous, shifting from one foot to another that it looked as if he was doing a dance.

Now a 50-footer is a long putt for anybody, but Bing didn't choke up. He made a bold try for the hole and the ball hung on the lip of the hole.

"You're nervous and you're shaking," he said, "but I'll bet you're shaking because you're so nervous."

He said, "You're shaking because you're so nervous."

He said, "You're shaking because you're so nervous."

He said, "You're shaking because you're so nervous."

He said, "You're shaking because you're so nervous."

He said, "You're shaking because you're so nervous."

He said, "You're shaking because you're so nervous."

He said, "You're shaking because you're so nervous."

He said, "You're shaking because you're so nervous."

He said, "You're shaking because you're so nervous."

He said, "You're shaking because you're so nervous."

**Major Clubs Busy Cutting Rusters**

NEW YORK, April 30 (AP).—Hain wasted out Monday's only scheduled major league game between New York Yankees and Cleveland Indians—but front office boys were busy shaving down the club roster on the eve of the first interseason series.

Five Detroit players were among those to be shorn in one of the day's most important roster changes with Lou Mueller, a bespectacled right-hander who threw two two-hit shutouts while winning six and losing three last season, going to Buffalo.

Mueller was shipped to Buffalo with catcher Joe Ezzati and second baseman John Kohnle, who were sent to the minors.

Others to go back to the minors were outfielder Ned Harris to Portland of the Pacific Coast League, and outfielder Bill Haps to Williamsport, Pa., of the Eastern League.

Meanwhile rookie outfielder Sam Mele who joined a Red Sox contract after receiving a bonus reported to be \$25,000, was optioned to Louisville Colonels, Boston firm in the American Association.

The Sox also reported catcher Frankie Pytak had gone home with a knee injury he has throwing arm treated by his family doctor.

**Soccer Players' Wages Increased**

LONDON, April 30 (CP).—British Football League clubs Monday increased the wages of professional players to a maximum of £10 (144.50) during the season—a rise of £1.

The maximum wage between seasons increased to £12 10s. The club also increased by £100 to £750—the maximum benefits paid to players for remaining with one club five years.

**Tigers To Get Civic Welcome**

HAMILTON, April 30 (CP).—Mayor of Control Monday decided to tender a civic welcome to the Hamilton Tigers when the senior hockey club returns from its unsuccessful journey to western Canada in search of the Allan cup.

Tigers, beaten in the Allan cup final by Calgary Stampede, are expected to reach here Thursday.

## Tigers Likely to Will Boudreau Says Bosox, Yanks Will Fight It Out For Flag

NEW YORK, April 30 (AP).—Having given the western clubs a double dose of Detroit, an expert appraisal, manager Lou Boudreau of Cleveland Indians unhesitatingly picks the Boston and New York to battle it out for the American Baseball League flag.

Here to open the Indians' first swing through the east, the youth-ful players of the club are good hitters to say for Detroit's batting power and pitching, but ventured the opinion that the Tigers' veterans might win in the heat of summer.

"They look great now," Boudreau conceded, "but Newhouse is a good pitcher and he's got a lot of experience. He's got a lot of experience. He's got a lot of experience."

The Red Sox and the Yankees, on the other hand, are comparatively young and, however, have a real setup. It should be a race all the way. I notice they're all worrying about the Yankees picking the Sox, but they seem to keep in enough runs to win. They will keep on winning them that way.

As for his own club, Lou was far from getting off the ground.

"We've been getting fine pitching, but now we're beginning to get some. My young catcher, Sher-man Lollar, has helped us win a couple of games with his pitching. We are a bad club, and neither are the St. Louis Browns."

**Peden Is Leading In Six-Day Race**

CHICAGO, April 30 (AP).—Torrey Peden of Vancouver and Jerry Rodman held a 13-point lead last night in the United States first half marquee six-day race after completion of 20 miles and 11 laps on the Coliseum saucer. The grind is now in its second day.

Twenty-three aulls were posted in the first half of the race. The riders appeared to be experiencing difficulty with synthetic tires.

Neal Cyr and Mike Albi, who also completed 20 miles and 11 laps, were second in point standings with 75.

**103-to-One Shot Wins at Jamaica**

NEW YORK, April 30 (AP).—Side Prime, a three-year-old gelding, which finished last in a field of 13 in his only previous start nine days ago, electrified the crowd at Jamaica today by winning the second race in the role of a 103-to-one shot—longest price of the young New York race.

The rank outsider, owned by Mrs. La Montagne and ridden by R. Donoso, paid \$208.20, \$68.70 and \$23.00.

## Yellowknife "Goes Modern"

Comforts of Civilization  
On Hand at Arctic Circle

YELLOWKNIFE, N.W.T., April 30 (CP).—Even within a few miles of the Arctic circle, the days when hard rock miners lived in cramped, uncomfortable shacks are a thing of the past.

At one site Indian Lake gold mine 150 miles northwest of here there is established a model, modern camp with nearly all the comforts which could be found in any of the towns to the south.

Caribou and bear wander within a few feet of the camp site, undisturbed by electric lights. The 70 miners at the camp live in tents about the size of the average living room in Edmonton.

Each of the dorm-sized tents, heated by wood stoves, accommodates 12 men. The office is in a prefabricated building, where F. W. Anderson of Ottawa, mine manager, can look over his maps and geological data under fluorescent lights. The cookhouse and living tents are fitted with electric lights, and the camp has short-wave radio transmitting and receiving equipment with which it communicates with Yellowknife four times daily.

Mr. Anderson, a veteran of the RCAF and RCAF, and who was a prisoner of war in Germany for more than three years, takes pride in the fact that 80 per cent of his employees are ex-servicemen.

"Many of them are army, but the majority are RCAF," he said. "They are all good boys and willing workers. I don't order them to do anything. I just ask them and the next thing I know, the job is done."

The men at the camp receive good pay. They clear \$200 a month after paying their income taxes and have little to spend their money on. They work an eight-hour day, six days a week, and get overtime pay. Every few months they can avail themselves of a trip to Edmonton, with transportation costs paid by the company.

Michael McGill of Edmonton thinks that when he "comes out," he will have a good start. The rest of the men all feel that it is a sound opportunity to save money while working in good surroundings.

The camp is equipped with a carpenter, tailor and three dog teams. The tractor team does the heavy hauling; the dog teams, under Lyle Howe, of Yellowknife, act as a light force and team leader.

One of the big events at the camp occurred this spring, when Blodine Howe's lead dog, became the mother of eleven pups.

Drilling is proceeding in the area, and the workers—especially the veterans—are sold on the future of the country.

"I did a lot of travelling when I was in the United States army air force, but the North Country is the best I've seen yet," said Robbie Burns, 30-year-old veteran who works at the camp.

**Asks Flag Body**  
**Speed Up Report**

OTTAWA, April 30 (CP).—Prime Minister Mackenzie King has asked the parliament committee to speed its work and to have a design of a distinctive national flag ready for submission to parliament this session, if possible, it was learned yesterday. The committee has had 2300 designs submitted.

**Huge Wheat Cargo**  
**Going to Market**

HARDIN, Mont., April 30 (AP).—Brian-Glen, Thomas D. Campbell, yesterday announced a fleet of trucks would seek a world record by hauling 24,000 bushels of wheat from his farm country Tuesday, enough wheat to fill 16 waiting boxcars. Glen Campbell is out to triple the 8,000 bushels carried into Climax, Minn., Friday by 200 farmers.

**Terrorist Group**  
**Admits to Murder**

JERUSALEM, April 30 (The Stern).—A group of Jewish terrorists who call themselves "Liberators for the freedom of Israel," yesterday acknowledged responsibility for the killing of seven British soldiers of the 8th Airborne Division in Palestine.

Jack H. Batten Reg. A. Batten Brock L. Batten

**THREE BROTHERS DIRECT FIRM:** Reg. A. Batten, vice-president and Toronto manager, Rapid Grip and Batten photo-engraving of Toronto, Montreal and Winnipeg, succeeds the late W. Howard Batten as president and managing director. Jack H. Batten, secretary-treasurer of the company, was appointed Toronto manager and vice-president succeeding his brother to that post. He was engaged as assistant manager for 12 years with the firm's Toronto plant. Brock L. Batten, Montreal manager, was appointed a director. The Batten family has been closely associated with the photo-engraving industry since 1910 when the founder, A. C. Batten, established the British and Colonial Press.

At Tel Aviv Thursday night, the "operation" against the acknowledgment was made borne division's car park at Tel Aviv, in the form of a "raid" aimed at taking arms, munitions and equipment.

## Road Ahead

(Continued from Page Nine)

western consumption) makes it doubly unhelpful.

**IN THE FIRST PLACE,** if the government is not collecting \$125 million then somebody must be getting that money. It represents a large part of the profits of co-operative, and municipal and government owned businesses. Therefore that money at the present time must be going to those concerns. But the profits of co-operatives are turned back to their shareholders. The big co-operatives in Canada are farmers co-ops. Other co-ops are nearly all owned and supported by the "little people."

Therefore the profits from co-ops are going to the "little man" right now—and he is paying income taxes on them anyway—so it is hardly fair to state, or try to leave the impression, that the government is being ripped here. The profits certainly aren't accumulating to finance companies, bankers or big business—as is the case with most of the privately owned concerns.

**PROFITS FROM municipal and**

government owned enterprises are complete to the credit of the government or municipality which owns them. These profits either go into general revenue funds, where they reduce taxation from other sources, or else they are used to improve services and reduce rates. Either way the little man, again, gets it. If these enterprises had to pay taxes then municipal and other taxes would have to go up, or more services would be increased.

Now let's just ask ourselves who wants co-ops and publicly-owned enterprises to be taxed. The answer of course is those concerns who compete with them. That means privately-owned business—and in most cases it means big business. And the reason big business wants the co-ops and publicly-owned enterprises taxed, is that at the present time they are raising prices as much as they would like to.

Every farmer knows the benefits they have derived from the entry of co-ops into competition with big business. It resulted in the farmer getting a better price for

his product, and paying lower prices for the things he needed. **TO TAX THESE** publicly-owned concerns and the co-ops would mean that prices would go up. Big business could then make more money. The "little man" would have to pay more for everything he bought—and it is my bet that this would more than offset any saving he would get by the abolition of his income tax.

Don't be fooled. "Little man" is a phrase that they will be the first to use. It is probable that your taxes are going to be raised anyway. It is certain that they will be the first taxes to be raised. At the present moment somebody is trying to get the answer to your question. It is for them to solve all your problems for you, look out. You have lots of friends, who are not ashamed to tell you who they are, who are working to have your taxes abolished—for the general good of the country.

**BEWARE OF THESE** unknown philanthropists, who have so much money to spend, who want you to help them at your expense.

The Greeks believed that if a young woman bathed in certain sacred pools her earnings for life would be gratified.

Winnipeg Pair  
Eat on Street  
As Party Gags

WINNIPEG, April 30 (CP).—Norma Harwitz and Irvin Rivkin, both of Winnipeg, experienced something unique in the way of "dining out" Sunday—they dined out the pavement at Portage Avenue and Main Street, Winnipeg's busiest intersection.

They were carrying out the penalty imposed on them when they were unable to pay the answer to a question during a "truth or consequences" game at a party.

**ACCOMPANIED** by escorts and armed with a special dispensation from city police, the pair nonchalantly set a colorful tablecloth on the pavement, squatted "chandi" fashion on the cloth and proceeded with their meal. Tomato, banana, sandwich and soft drink.

Irvin had a quick explanation for anyone who wanted to know the reason for the strange repast. It's the housing shortage you know," he said.

Ottawa Company  
Elects Officers

OTTAWA, April 30.—Election of new officers of J. H. Connor and Son Limited, Canada's oldest and largest exclusive manufacturers of domestic and commercial washing machines, was announced today following a meeting of the board of directors.

**WILLIAM M. CONNOR**, who has served for many years as secretary-treasurer of the company, was elected president and general manager. Other officers include Knox Ide, chairman of the board; Norman H. Bell, assistant to the chairman; W. M. Johnson, vice-president in charge of sales; A. L. Mattman, treasurer; W. C. Donaldson, secretary.

It was disclosed that stock control of the company had been acquired by interests affiliated with British Rubber Company of Canada Limited, the Huron Manufacturing Company Limited, the Pyramus Blue Company and the P. H. Blade Corporation Limited.

**MR. CONNOR** stated that the company was promulgating plans for the improvement and expansion of the plant at Ottawa. Every attempt will be made to better working conditions and under the Connor name additional high-class household appliances will be manufactured in the Ottawa factory.

"Not only do we expect to keep all of our present staff but excellent opportunities will be provided for a substantial number of new employees," said Mr. Connor.

Throughout the war years the employees and supervisors of J. H. Connor & Son Limited have turned out critically needed war supplies for the armed forces. Mr. Connor expressed the directors' appreciation of the excellent standard of performance maintained.

**HE ALSO** commented on the excellent co-operation received during the reconstruction of peacetime operations. Mr. Connor stated that improved post-war washing machines, commercial laundry equipment are coming off the assembly line and will be shipped in steadily increasing quantities to all points in the Dominion. Every effort is being made by both management and employees to meet the heavy demand as quickly as possible.

**Manitoba Selling**  
**At Wholesale Cost**

TORONTO, April 30 (CP).—Fred H. Cavers, president of the Ontario Association of Radio and Appliance Dealers, yesterday said the association's annual meeting that the Manitoba government, which recently started an extensive rural electrification scheme, sells appliances to the home owner at cost price—usually about 30 per cent below the regular retail price.

"Manufacturers and distributors alike are keenly interested in this situation and have assured dealers they are back of them in seeing merchandise sold through legitimate channels and at retail prices," he stated.

A Report  
to the customers of  
ZELLER'S

This is what was spent with  
the \$12,000,000 done in  
our stores last year!

THE past year has been the busiest in the history of the Zeller group of stores. During that period customers spent in them more than \$12,000,000.

Because Zeller's sincerely appreciates your patronage, and believes that you may be interested in what was done with this large sum of money, a report is presented here for your information.

Most of this money, you will note, went to procure the merchandise sold to you. The second largest amount was paid to the staff in remuneration for their work. The cost of occupying the store premises made up the next largest item. Government taxes stood fourth in the list.

Zeller's is a Canadian company, maintaining 27 stores in 26 cities throughout the Dominion, and their aim has always been to serve their customers to the best of their ability, and to provide a steady flow of reliable, popularly priced merchandise for your convenience.

In view of the abnormal conditions which continued to prevail during the past year, it was only through the unflinching helpfulness and co-operation of suppliers, and the conscientious efforts of our staff, that it was possible to maintain a service meriting such widespread support as Zeller Stores received.

It has been a pleasure to serve you, and the Zeller Store in your community thanks you for your patronage.

Federal Taxes  
Totalled \$613,000

The Canadian Government received from Zeller's Limited, for the past fiscal year, \$613,000. This amount does not include \$87,000 that will be refunded later. In other words, the net amount of the Company's Federal Taxes was equivalent to more than five cents out of every dollar spent by customers in Zeller Stores.

Cost of Occupying  
Stores—\$758,114

Every effort is made to maintain Zeller Stores as attractive, comfortable, well-lighted places for convenient shopping. To pay rents and property taxes, light, heat, water, insurance and other expenses involved in keeping up properties, the Company spent last year \$758,114, or 6.30% of its total income.

DISTRIBUTION OF TOTAL INCOME	
Cost of Merchandise and Supplies	\$ 8,374,602 63.5%
Remuneration to Staff	1,678,864 13.9%
Occupational Costs (Rent, etc.)	758,114 6.3%
Merchandise Expenses	1,074,444 8.9%
Income and Taxes Paid (Total)	41,000 0.3%
Dividends to Shareholders	235,000 1.9%
Interest on the Balance	122,643 1.0%
Total Income	\$12,942,813 100.0%

Staff Received  
\$1,678,864 in  
Remuneration

Zeller's regards as its greatest asset the many hundreds of employees who serve you in its stores, or work for it, and wishes to provide you with merchandise. It is a cardinal point in the Company's personnel policy that all employees are entitled to share in the profits they help to create, not as a substitute for a fair wage, but as a supplement to it. The profits, either through individual wage agreements providing for fixed wages and commissions or through the Company's regular Profit-Sharing Bonus Plan.

Approximately 14c out of every dollar which customers spent in Zeller Stores last year went to the staff in wages and bonuses, comprising a total of \$1,678,864. This sum includes \$122,642 which employees received as Christmas and Profit-Sharing Bonuses. In the distribution of this latter amount, the Company also included those men, formerly in its employ, who were on active service.

Summer vacations with pay are accorded to all employees who have been with Zeller's for six months or more. After three years' service, employees are also entitled to a winter vacation with pay. The length of these holiday periods depends on length of service, with the maximum holiday in each season limited to two weeks. Last year, employees received \$55,000 in salaries while on holiday. This amount is included in the total remuneration mentioned above.

Shareholders received \$235,000, and \$226,043 was left in the business. The net profit remaining after providing for all expenses, including taxes, amounted to \$461,043, or a little less than 4c out of every dollar of sales. Of this amount, about one-half, or \$235,000, was paid to the shareholders in dividends, and the balance was left in the business.

Shareholders received \$235,000, and \$226,043 was left in the business.

Shareholders received \$235,000, and \$226,043 was left in the business.

Shareholders received \$235,000, and \$226,043 was left in the business.

Shareholders received \$235,000, and \$226,043 was left in the business.

## YMCA Is Thanked For War Services

Thanks to the Canadian YMCA war services have been received from the Rt. Hon. Malcolm MacDonald, high commissioner for the United Kingdom in Canada, on behalf of the United Kingdom. It

was announced Tuesday by Clark Ready, general secretary, Edmonton YMCA. The letter was written just before Mr. MacDonald left Canada.

**THE LETTER READS:** "I have been asked by the secretary of the Wheat Producers' Association of Canada to express to you my sincere appreciation for the work you have done in the past year. Expected wheat acreage is 18,000 acres; fallow, 25,600 acres; grass crops, 7,500 acres, and rye, oats and barley, 50,000 acres. Seed is said to be adequate.

At Whitecourt, spring work has been carried on for the last few

state for Dominion affairs, on behalf of the government of the United Kingdom, to thank you most sincerely, and through you, all those associated with the Canadian YMCA's war services, for the very generous help, which, you have rendered. The weather has been without doubt, for the last few days, with soil conditions regarded as generally good and soil surface drying fast. Seeding was expected to start this week, with an anticipated 25 per cent swing from barley to wheat. Seed grain of all kinds is reported scarce, indicating

OF 24 FARMERS interviewed during the week-end at Vermilion, only one had sown any crops. Most of them declared the ground was still too wet from the winter's ex-

countless men, women and children who remember with profound gratitude the kindness of friends in Canada during the difficult years of war. The manifestation of your friendship with us, of your faith in our common cause, was a constant source of courage and exceptionally heavy snow. As a result, wheat acreage will be cut because of the short season. Forage crops are expected to increase with summer fallow about average. Seed barley and potatoes are scarce in the district, while wheat, oats and

The letter was received by J. W. Beaton, senior secretary for Canadian-Indian YMCA war services.

### Served Poor Food

WASHINGTON, April 30.—(AP)—A special civilian committee of food experts reported to War Secretary Patterson yesterday the army has overstocked food, wasted it and

booked and served it in a manner as last year, with alfalfa and clover acreage expected to increase. "I definitely below the accepted Seed grains of all kinds are available in that area, and present indications are that if crop conditions of commercial hotels and restaurants." prove favorable, farmers will store on their farms the entire crop, except where immediate cash is
